The collection of hardware features organic-inspired forms cast in bronze. In their natural habitat, the Turkey Tail, Waxy Deceiver and Slugs favour a decaying tree on the forest floor. We've playfully elevated and adapted these curious wonders of nature to make opening your doors and drawers or hanging your jacket a tactile treat. We chose colourful finishes for each mini sculpture to enhance their form and vitalize your scheme; a lacquered oxidised red or blue for our larger pieces and a bright polished bronze for our family of Slugs.
